	In the last years, Lebanon faced very difficult and exceptional
	circumstances that were further exacerbated by an ongoing
	catastrophic economic and financial crisis. Notably, Lebanon
	currently hosts ~1.5 million Syrian refugees, representing over a
	quarter of the national population and distributed in several
	hundreds of sites across the nation in very difficult living
	conditions.
	According to the World Bank, the Lebanon crisis is classified as one
	of the "top 10 most severe crises globally since the 19th century". An
	estimated 80% of Lebanese citizens are living at or below the
	poverty line and 89% of the 1.5 million Syrian refugees live in
	extreme poverty.
	The Lebanese Succour Association (LSA) is a non-profit charity
Situation/Humanitarian	registered in Lebanon (Reg. No 90/2015) and is an active national
analysis	organization responding to emergency, disaster, and relief needs.
	Further, it provides training in all related fields. In addition, LSA is
	active in development and human security projects.
	With the ongoing hard conditions explained above, the public's
	need for the LSA's free Emergency Medical Services (EMS) has
	become much greater than before. These latter comprise a wide
	spectrum of cases includin <mark>g car accident victim</mark> s,
	cardiac/respiratory urgent interventions, burns, fall down,
	wounded, Neonatal transportation, dialysis patients, elderly,
	hospitalized patients who need special transportation measures,
	etc).
	In this context, to maintain our free services, LSA realizes several
	fundraising campaigns and collaborate with a wide range of
	pa <mark>rtners to ensure the maintenance of i</mark> ts free services and activities
	An amount of USD 2,154.50 was collected and transferred to LSA in
LSA, SANAD Relief and	collaboration with SANAD Relief (USA) and Ibad Al-Rahman
Ibad collaboration	Association-Ibad (Lebanon) in order to support LSA's EMS.
	Support Emergency Rescue Workers in Lebanon by supporting
	their daily EMS missions. This will be done by covering the cost of
Project's aims	fuel used for ambulances providing emergency missions in our
	different EMS centers across Lebanon.
